Quantity 1piece

Features

- Excellent in durability, rust resistance, and corrosion resistance, it prevents deterioration even in high humidity/marine environment.
- Cut particles are easily removed and clogging hardly occurs. Therefore, the sharp edge performance is maintained.
- You need only one file to process various materials from soft materials to hard materials.
- The BRHIEX series have different file pitches on the front and the back, allowing the use of a single file for two different purposes such as roughing with the front side and finishing with the back side.
