

TG7-C Series (Common integrated terminal block)

Common integrated type, standard 32P input/output interface terminal block

■ Feature

Common integrated terminal block with improved cost reduction and convenience by mounting 20 pole terminal for common on the 40 pole interface terminal block

- Reduced panel enclosure cost due to reduced panel installation area
- Reduced labor costs due to no need to assemble a separate common terminal block
- Reduced part costs due to no need to purchase a separate common terminal block
- Same electrical specifications as 7.0mm pitch
The size of the terminal block bolt and nut(pin) is the same as our product XTB-40H

■ Model configuration

- 1 7.0mm pitch, smallest interface terminal block
- 2 Applicable connector specifications and number of terminal poles
- 3 Common terminal configuration
- 4 Applicable terminal bolt
