

TG7-L Series (Interface terminal block with LED indicator for operation check)

Standard terminal block for input/output that makes it easy to check the operation of remote I/O

■ Features

- **LED indicator-mounted input/output interface terminal block**
 - If the distance between the controller and the I/O is far and it is not easy to check the transmission and reception of signals, it is possible to check the I/O with the LED blinking easily
- **Easy for working and maintenance**
 - Convenience of workability, maintenance and repair by using a hinge-typed transparent T/B cover
 - Very high workability with a structure that does not come off even when the T/B bolt is completely loosened.
 - Installation is very easy due to the DIN rail mounting structure
- **Structure with excellent environmental resistance and safety**
 - As this is an integration type in which PCB is not exposed to the outside, it has an electrically safe structure such as dust, moisture, etc. and flame retardant material is used for external case
- **Usage**
 - Ideal for systems and remote I/Os that require frequent I/O checks

■ Model configuration

- 1 7.0mm pitch, smallest interface terminal block
- 2 Applicable connector specifications and number of terminal poles
- 3 IO indication LED mounting type
- 4 Input side common polarity
- 5 Applicable terminal bolt

■ Model selection

Model		IO points	Common polarity	Mounting connector model	Cable side connector model	Dimension (W*D mm)	Mounting method
For "Y" terminal	For "O" terminal						
TG7-1H20L-N	TG7-1H20L-N-O	16Point	NPN ⊕COM	HIF3BA-20PA-2.54DSA1	HIF3BA-20D-2.54R	80.0 * 40.0	DIN Rail (Channel)
TG7-1H20L-P	TG7-1H20L-P-O			PNP ⊖COM	XG4A-2031		
TG7-1H40L-N	TG7-1H40L-N-O	32Point	NPN ⊕COM		HIF3BA-20PA-2.54DSA		
TG7-1H40L-P	TG7-1H40L-P-O			PNP ⊖COM	XG4A-2031		
					HIF3BA-40PA-2.54DSA	HIF3BA-40D-2.54R	
				XG4A-4031	XG4M-4030		

※ Mounting connectors are compatible products and are subject to change without notice.

■ General specification

Rated voltage	12~24V DC
Rated current	1A
Operation display	IO : LED (Red) / Power : LED (Green)
LED rating	24V DC : 100mA max. / Point
Insulation resistance	500MΩ or more (DC 500V)
Withstand voltage	AC500V 1min
Suitable wire	AWG22~16 (1.5mm/MAX)
Terminal screw	M3 × 10L
Screw torque	7~8Kgf·cm (0.68~0.78N·m)
Ambient temperature	-10°C ~ +50°C (No condensation)

■ Material

Terminal block, cover	Modified PPO
Protection cover	Polycarbonate
Board	Epoxy 1.6t

■ Applicable crimp terminal specifications

■ Applicable cable specifications

When ordering, please indicate for TG7-1H20L(1H40L)-□ connection cables between various PLCs and our I/O LINK terminal block.
