

## 3M™ Multi Gas/Vapor Cartridges

### Ordering Information

	Product Number	Description	Quantity
	6006	Multi gas/vapor cartridge	60/case
	60926	Multi gas/vapor—P100 cartridge	60/case
3M™ Multi gas/vapor Cartridges are approved for use with the 3M™ 6000, 7000 and Ultimate FX FF-400 Series Facepieces.			

All multi gas/vapor cartridges/filter assemblies can be used up to the NIOSH approval limits:

- 10 times the permissible exposure limit (PEL) with half facepiece, or
- 10 times the PEL with full facepiece qualitatively fit tested, or
- 50 times the PEL with full facepiece quantitatively fit tested, or
- the maximum use concentration allowable in applicable OSHA standards, whichever is lower.

### Important

Before using these filters, you must determine the following:

1. The type of contaminant(s) for which the respirator is being selected.
2. The concentration level of contaminant(s).
3. Whether the respirator can be properly fitted on the wearer's face. Do not use with beards, on other facial hair, or other conditions that prevent a good seal between the face and the facepiece of the respirator.
4. Before use of these respirators, a written respiratory protection program must be implemented, meeting all the requirements of OSHA 29 CFR 1910.134, including training, medical evaluation and fit testing.
